

Assignment 2
 Personal Gender Theory Paper, Part 2
 70 points
 Due December 10 by 5pm

For this assignment, read your paper written for Part 1 of this assignment and respond to it.

In the first part of your paper (approximately 1 – 1 ½ pages) briefly summarize your original gender theory.

In the second part of your paper, describe your CURRENT theory of gender – how and why men and women are different/same. Explain how it differs from your original theory as well as what has not changed. If your theory has not changed at all over the course of the semester, explain why not.

In your paper, you should provide examples from the course readings as appropriate. What this means is that you will also need to properly cite those readings that you reference and you will need to provide a reference list. I will not accept papers that do not incorporate course readings and I will not accept papers that do not have a reference list. Your paper should be approximately 6-8 pages in length.

The content of your theory will not affect your grade; the organization, style, and coherence of your paper will.

The following grading rubric will be used to grade your paper:
